Uncover

Zara Larsson

```
      Am           F
Nobody sees, nobody knows
          C               Em
We are a secret, can't be exposed
            Am                F
That's how it is, that's how it goes
            C
Far from the others
            G
Close to eachother

        Am
In the daylight, in the daylight
         F
When the sun is shining
     C
On a late night, on a late night
        Em
When the moon is blinding
        Am
In the plain sight, plain sight
      F
Like stars in hiding
 C            G
You and I burn on, on
           Am
Put two and two - gether, forever
 F
We'll never change
        C
Two and two - gether
            G
We'll never change

Nobody sees, nobody knows..

                   Am              F
That's when we uncover, cover, cover
                    C              Em
That's when we uncover, cover, cover

My asylum, my asylum
Is in your arms
When the world gives heavy burdens
I can bare a thousand tons
On your shoulder, on your shoulder
I can reach an endless sky
Feels like paradise
Put two and two - gether, forever
We'll never change
Two and two - gether
We'll never change

Nobody sees, nobody knows...

          Dm                      Am
We could build a universe right here
                          F
All the world could disappear
                           C
Wouldn't notice, wouldn't care
               Dm                 Am
We could build a universe right here
                    F
The world could disappear
                   G
Yeah I just need you near

Nobody sees, nobody knows...
