## Fooo Conspiracy

Em C G  
I can't say they stole the stars

And put them in your eyes, girl

Em C G  
Can't say you stopped my heart and I need CPR

Em C  
Can't really say I want you for my birthday

G  
I've already gone through every cliché

Em  
Watcha say when you fall in love?

C D  
Words are never enough

C  
It's all been done

G D  
It's all been said before

C G D  
I gotta look for ways to strike the perfect chord

C G  
Gotta go against the flow

G D  
Break the mold

C G D  
But how am I supposed to think it up?

When I'm dumb-du dumbstuck

Baby, everything's so overdone  
But I guess you really know it when  
Two hearts beat as one  
But if I say my love for you grows stronger with each day  
Could you forgive these unspeakable clichés  
Watcha say when you fall in love?  
Words are never enough

It's all been done...

It's all been done...
