Refräng, Stick
The snow blows white on the mountain tonight
                                                                                                          D

A kingdom of isolation and it looks like I'm the Queen

    The wind is howling like the swirling storm inside
                                                                                                                                                                                                                                                                                                      Brygga
    Couldn't keep it in, heaven knows I tried
    Don't let them in, don't let them see
Be the good girl
You always had to be
                                                                                                                                                                                                                                                                                                                                                                                        D
   Conceal, don't feel
Don't let them know
Well, now they know
                               G
Let it go
                               D
Let it go
                      Em
Can't hold you back anymore
                              G
Let it go
                    D
Let it go
                  Em

         G D Em
And here I stand, and here I'll stay
Let it go
                  D
Let it go
The cold never bothered me anyway
It's funny how some distance
Makes everything seem small
And the fears that once controlled me
Can't get to me at all
Up here in the cold thin air
I finally can breathe
I know left a life behind but I'm too relieved to grieve
Let it go...
G D Em C
    Standing frozen in the life I've chosen
G D Em C
    You won't find me, the past is so behind me
G D Em C
    Buried in the snow
