Not too young

Sabina Ddumba

G Em They ask me all these questions, Bm Giving me these lectures, A Em It's getting old Bm G So many suggestions on my directions Α Where I should go Em They say, hey little girl In this world you will learn when you're older Don't rush how it feels 'Cause you'll know when it's real in time Em I don't mean to be rude, G But I know that we don't live forever, So I'm gonna go with my heart A 'Cause the heart don't lie Em G They say I'm young, but I'm not too young Bm To know what LOVE is, A To know what LOVE is, oh oh G Em They say I'm young, but I'm not too young Bm To know what LOVE is, To know what LOVE is, oh oh They tell I don't listen, got all the answers Miss knowing all Please quit with your predictions on my decisions I make my own They say, hey little girl... They say I'm young... Not too young, not too young No, no, I'm not too young Not too young, not too young To know what LOVE is Not too young, not too young No, no, I'm not too young Not too young, not too young To know what LOVE is

They say I'm young...

They say I'm young...

Not too young, not too young...
