## Sorry

## **Justin Bieber**

```
Am
You gotta go and get angry at all of my honesty
                 Am
You know I try but I don't do too well with apologies
                      Am
I hope I don't run out of time, can someone call a referee?
               Am
Cause I just need one more shot at forgiveness
                 Am
I know you know that I made those mistakes maybe once or twice
                    Am
                         G
By once or twice I mean maybe a couple hundred times
                                                          Intro, Vers, Outro
          Am
So let me, oh let me redeem, oh redeem myself tonight
                                                          |F Am |G
         F
                Am
Cause I just need one more shot at second chances
                                                          Brygga, Refräng
F Am
                                                            F Am | G | x3
 Is it too late now to say sorry?
           Am
                                                                     F
Cause I'm missing more than just your body
                                                             0m
F Am
 Is it too late now to say sorry?
  Dm
Yeah I know that I let you down
                                                                             Am
 F
Is it too late to say that I'm sorry now?
F Am
      G
  I'm sorry
F Am G
  Sorry
F Am G
  Sorry
    Dm
Yeah I know that I let you down
 F
                     G
Is it too late to say I'm sorry now
F Am G
I'll take every single piece of the blame if you want me to
But you know that there is no innocent one in this game for two
I go, I go and then you go, you go out and spill the truth
Can we both say the words, say forget this?
Is it too late now to say sorry?...
             Am
  I'm not just tryna get you back on me
    F
              Am
Cause I'm missing more than just your body
F Am
 Is it too late now to say sorry?
    Dm
Yeah I know that I let you down
Is it too late to say I'm sorry now?
I'm sorry...
I'm sorry
```
