

Uncover

Zara Larsson

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others
Close to each other

In the daylight, in the daylight
When the sun is shining
On a late night, on a late night
When the moon is blinding
In the plain sight, plain sight
Like stars in hiding
You and I burn on, on

Put two and together, forever
We'll never change
Two and two - gether
We'll never change

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others
Close to each other

That's when we uncover, cover, cover
That's when we uncover, cover, cover

My asylum, my asylum
Is in your arms
When the world gives heavy burdens
I can bare a thousand tons
On your shoulder, on your shoulder
I can reach an endless sky
Feels like paradise

Put two and two - gether, forever
We'll never change
Two and two - gether
We'll never change

Nobody sees, nobody knows...

That's when we uncover, cover, cover...

We could build a universe right here
All the world could disappear
Wouldn't notice, wouldn't care
We could build a universe right here
The world could disappear
Yeah I just need you near

Nobody sees, nobody knows...
