Vers

| Em | C | G | Bm |

Em
Nobody sees, nobody knows

G
We are a secret, can't be exposed

Bm
That's how it is, that's how it goes

Em
Far from the others

G
Close to each other

Em
In the daylight, in the daylight

C
When the sun is shining

G
On a late night, on a late night

Bm
When the moon is blinding

Em
In the plain sight, plain sight

C
Like stars in hiding

G

Bm
You and I burn on, on

Em
Put two and together, forever

C
We'll never change

G
Two and two - gether

Bm
We'll never change

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others
Close to each other

Em
That's when we uncover, cover, cover

G
That's when we uncover, cover, cover

My asylum, my asylum
Is in your arms
When the world gives heavy burdens
I can bare a thousand tons
On your shoulder, on your shoulder
I can reach an endless sky
Feels like paradise

Put two and two - gether, forever
We'll never change
Two and two - gether
We'll never change

Nobody sees, nobody knows...

That's when we uncover, cover, cover...

Em
We could build a universe right here

G
All the world could disappear

Bm
Wouldn't notice, wouldn't care

Em
We could build a universe right here

C
The world could disappear

Bm
Yeah I just need you near

Nobody sees, nobody knows...
